# Taking a break. This is what POZ is all about!

Here in Mauritius, well-being, like cuisine, religion and culture, is at a crossroad between east and west. Our “gran dimoune” as we say here, meaning our elders, have brought with them, from their faraway lands, their knowledge and secrets: ayurvedic massage techniques from India, reflexology from China and many almost miraculous properties from the African soil. Those traditional remedies have always been part of the Mauritian way of life. An island, where taking time is not wasting time.

“Kass enn ti poz” is an art de vivre! It means to just take a break and enjoy the time being. Watch a sunset, sit under a banian tree, reconnect with nature or just relax for a little while... carpe diem.

POZ draws its inspiration in the tropical and vegetal surroundings of the green Mauritian nature. If Mauritius is well-known for its beautiful beaches and turquoise lagoons, there is another side to this paradise: a trip deep into the country – a generous tropical vegetation and refreshing waterfalls.

So, just put pause. Breathe deeply, slowly... You will leave POZ happy, serene, and full of energy!

5% goes to  
**Green**  
attitude  
foundation

Buying a POZ product is contributing to sustainable actions in Mauritius. 5% of each purchase goes to the Green Attitude Foundation which in turn supports quite a number of sustainable development projects linked to the sustainable development: protection of environment, support of the local economy, community and environment.

# rituals from our roots

*Rs*

## **Gran mama**

**[90 min]**

**2900**

# POZ 100% natural products

Our beauty and massage products are exclusively produced for POZ, by Indika. They are 100% natural and crafted from ingredients and exotic plants sourced from the Indian Ocean, Sub-Saharan Africa, and other regions around the world. The packaging is fully recyclable.

Indika is a Mauritian company that cultivates medicinal plants in the Ferney Valley to create simple and healthy health and wellness products. Their approach highlights the biodiversity and botanical heritage of the Indian Ocean islands, based on values such as nature-inspired innovation, protection of local biodiversity, promotion of sustainable and responsible agriculture, and improvement of the quality of life for the population.

Among the essences used, we find local essences like neem, cinnamon, cardamom also known as elaiti and babool.
