foundation

Our projects

We participate in scientific research projects with committed organisations to protect these magnificent animals!

We teach schoolchildren about the importance of our marine ecosystems.

We develop educational content for sea operators to help them carry out their activities more sustainably.

We organize an annual music competition for Mauritian composers & performers.

We produce an album with the finalists and a video clip for the winner!

How you can help

**With only Rs200
per adult, you can help us
protect the ocean & bring
local culture to life!**

All our educational and scientific projects to preserve the marine environment as well as our work to support our local culture and heritage depend largely on your donations to the Green Attitude Foundation.

If you wish, we will send you quarterly email updates on all our projects - just let us know during check-out.
